8/24/67

Dear Mr. Murr,

Many thanks. The data is valuable. Sorry it took so long.

I seem to recall one o her, where the log discloses the arrest was of a man who had no business being there.

There wasa aman taken from the TSBD, but I recall no record in the police logs.

After doing that book I got the original copy of that slip of paper and I found another place where a copy is in therecord. I was unaware of the logical Marina identification but was of the Vial marking.

The Hosty entry of which you ask is legitimate. The FBI edited it out of their first transcription of this address book. The story is that this comes from Hosty's visit to the Paine home.

Many thanks for the information of Smith, to whom I now write.

Sincerely,

Harold Weisberg
